

The Cataract Sportsmen's Club is a non-profit organization that believes in, and is dedicated to educating our youth in management of natural resources, conservation, wildlife, and wildlife habitat. We will work independently or with other organizations to insure that our local area will maintain an ecological friendly atmosphere that future generations can enjoy. We will be involved with our state and federal resource managers, helping to guide them through events so their decisions are made educated and fairly. We will raise revenue in support of programs designed to enhance the natural beauty of our area, educate our youth and preserve hunting, fishing, and other related sports.

By becoming a member, you are pledging your support to the Club in their ongoing commitments that require funding each year to include:

- Maintaining current club facilities, grounds, and rifle range*
- Cataract Mill Pond improvements, trout stocking, and other ongoing conservation projects*

Benefits of being a Club member:

- Active voting member
- Showing support to the Club's community and conservation projects
- Exclusive use of Club rifle range
- 10% off building and shelter rentals
- Invite to membership dinner (date to be announced)

For Membership Term January 1-December 31, 2023 (one year)

Name(s): _____

Address: _____
